Education

M.Tech. , Indian Institute of Technology, Bhubaneswar Bhubaneswar (752050), Odisha	2019 – 2021
B.Tech. , Madan Mohan Malaviya University of Technology (State Govt. University) Gorakhpur (273010), UP	2014 – 2018

Skills

- **Languages:** Java, C++, Python, SQL, JavaScript, Bash
- **Tools:** Kafka, Redis, Docker, Jenkins, K8s, Prometheus, Grafana, New Relic, Kibana, AWS
- **Databases:** Relational- SQL Server, MySQL, PostgreSQL ; NoSQL- MongoDB
- **Frameworks:** Spring, Spring Boot, React, PyTorch, Keras (TensorFlow)

Work Experience

SDE-2 , <i>onsurity.com</i> , Bengaluru	Mar 2025 – Present
• Communication Module: Designed and implemented APIs using Spring Boot to enable multi-channel communication via SMS, WhatsApp, Email, and Push Notifications. Built dynamic, configurable templates and integrated multiple third-party messaging platforms for seamless delivery. <i>Tech Stack: Spring Boot (Java), SQL Server, MongoDB, AWS</i> • Wellness: Diagnostic: Designed and developed REST APIs enabling member-level diagnostic test selection with partner-specific options; implemented test search, slot booking, coupon application, and end-to-end booking workflows. Gyms: Built integration APIs to aggregate and expose gym services from partners such as Cult and Fitpass. Consultations: Developed APIs to enable medical consultation services through third-party partners including MediBuddy and Practo.. <i>Tech Stack: Spring Boot (Java), SQL Server, Elasticsearch, MongoDB, AWS</i>	
SDE-1 , <i>policybazaar.com</i> , Gurugram	May 2021 – Mar 2025
• Coreservice: Developed features for pre-payment customer journeys like visit, enquiry, lead, and order. Managed 10M/day traffic (2:1 read/write). <i>Tech: Spring MVC (Java), SQL Server, MongoDB, AWS</i> • Policy Copy Detail (PCD) and Central Doc Repo (CDR): Developed a robust central backend system providing policy details for multiple teams. Enhanced performance using design patterns, indexing, and Kafka(2M/day traffic). In CDR, Managed document categories such as policy copies, miscellaneous, and KYC docs. (250K/day traffic). <i>Tech: Spring Boot (Java), Kafka, AWS S3, SQL Server, MongoDB</i> • Docprime: Implemented login features, member addition, HealthId creation, docs store by user and consent basis from HIP in HealthLocker, implemented JWT authentication and authorization measures to enhance system security, ensuring secure access to resources. (Traffic: 500/day organically). <i>Tech: Spring MVC (Java), Postgres, MongoDB, AWS, ReactJS</i> • Mongo Cron Jobs: Built scheduled jobs for data migration from MongoDB to S3, reducing cost by 20%. <i>Tech: Spring MVC (Java), MongoDB, AWS, jQuery</i> • Aadhaar Vault: Developed secure storage system for UIDAI metadata used across teams. <i>Tech: Spring Boot (Java), MySQL, MongoDB, AWS</i>	
Teaching Assistant , <i>IIT Bhubaneswar</i> , Odisha	Jul 2019 – Apr 2021
• Guided and supported 100+ students by resolving academic doubts. • Designed assignments, created test content, and provided technical mentoring.	

Personal Projects

- Designed and deployed Order and Product microservices on a **K8s** cluster, implemented **CI/CD pipeline using Jenkins**, and integrated **Prometheus and Grafana** for real-time monitoring and alerting.
- Microservices Project (Spring Boot): Customer, Hotel, and Rating services with Eureka, API Gateway, and inter-service communication.

Achievements

- **Two-time Star Performer** at Policybazaar for consistently exceeding performance expectations and contributing to major business successes.
- Led the **final year B.Tech project** as the Team Head, demonstrating strong leadership and technical prowess.
- Active competitive coder on LeetCode and Codeforces, solving complex problems.
- Achieved an exceptional **GATE Percentile of 98.06%**, securing an impressive **Rank 41 (General)** among 25,000+ candidates.
